Software Developer and SEO Specialist

4 years of experience as a WordPress developer, I have successfully delivered over 40 projects. My responsibilities included developing, testing, and deploying software applications and WordPress websites within an average of 5 weeks. In addition, I have enhanced the website's SEO and speed using my optimization skills. Furthermore, I have contributed to making websites more user-friendly by utilizing my skills in graphic designing and content writing.

Company Website

Prabhu Steels And Hydro Equipment Industries Limited•02/2023 - 02/2023

Prabhu Steels and Hydro Equipment Industries Limited emerged in the wake of the devastating earthquake of 2072 Baishakh 12, which left a profound impact on the Himalayan and hilly regions of Nepal. In its aftermath, the Nepalese construction landscape witnessed a transformative shift. Traditional building materials were replaced by resilient alternatives, including iron TMT rods, mesh pipes, C-channels, square rods, and a myriad of other iron and steel components. This change not only strengthened structures but also marked a significant step towards modernizing Nepal's infrastructure.
